Jul 2021 - Oct 2022

Technical Coach
EXEAL

As a really passionate developer, I decided to move my career to the next level, today I work as a Technical Coach helping teams to improve their technical skills like:

Jan 2020 - Jul 2021

Sr. Software Engineer
K-LAGAN

I worked at K-Lagan as a senior software engineer working for a client applying my strong XP, TDD, and technical lead knowledge.

Jun 2019 - Dec 2019

Software Craftsman
CODURANCE

I worked in codurance for 6 months, I grew my skills as Software Craftsman improving every day my XP, TDD and refactoring practices.

Jan 2019 - Jun 2019

Training and Development Lead
NEORIS ARGENTINA

Responsible for the coordination, execution of training plans of the 5 offices that Neoris has in Argentina.

Jan 2017 - Jan 2019

Technical Lead .NET
NEORIS ARGENTINA

I worked for NEORIS Argentina as the technical leader, Among my tasks was to create architecture components for the solution, responsible for the quality and technology used in the application we built.

Jan 2015 - Jan 2017

Sr. Software Developer
NEORIS ARGENTINA

I have given training courses teaching and promoting best software development practices. I was very happy working there, but I need new challenges. I worked in several projects in NEORIS:

- YARD:
 - FrontEnd: Angular 5 with typescript
 - BackEnd: WebApi 2 with .NET FWK 4.7 and MS-SQLServer
- FyO Granos:
 - FrontEnd: Desktop application C#, XAML(WPF)
 - BackEnd: WCF, MS-SQLServer, .NET FWK 4.5.1
- Bolsa de Comercio:
 - FrontEnd: Desktop application C#, XAML(WPF)
 - BackEnd: WCF, MS-SQLServer, .NET FWK 4.5.1

Jan 2014 - Current

Founder
FULLCODERS

I work as Freelance Developer with technologies Desktop, Web and Mobile.

Jul 2014 - Dec 2014

Developer .NET
GRUPO OLEUM S.R.L

I worked at Grupo Oleum S.R.L for only 6 months, where I have stood out because of my predisposition, responsibility and willingness to face new challenges. In Grupo Oleum S.R.L I worked maintaining software used in service stations throughout Argentina.

May 2011 - Jun 2014

Owner
DPTECHNIK

Sales and Repair computers.

TESTIMONIALS

Matias Emanuel Toro SENIOR CONSULTANT AT ALTRAN

On that occasion I want to provide that whoever necessary should be received my personal and special recommendation for Damián, who in the last year has been working with me as technical leader. I came to the Neoris in the beginning of 2017; and, immediately we created a team synergy. Damián took on the role of senior developer (TD) with success. He has proven himself to be a lifelong learner, with a willingness to embrace change and do every part of his job with the highest quality standards. He handled all our software corporate needs - from recruiting (technical interviewing) to organize a work team aligned, estimations and direct customer communication. Damián's efforts and innovation also readied us for launching a highly successful project to Dreyfus Company. He was responsible of that successful team. This, I believe, is one of his greatest accomplishments. I am appreciative for the opportunity to have had Damián as a workmate, I recommend him for any position or career he chooses. Sincerely

Gabriele Lippi FRONTEND ENGINEER AT LIFULL CONNECT

Working with Damián I could see both his great technical skills, especially in the backend and C# world, and most importantly his empathy and ability to work with the team. He is smart and always kind with his teammates. Together we delivered the prototype of the app in time and we did it without falling down the pressure of the deadline.

Andrés Miranda PRODUCT OWNER AT ALTRAN

I had the pleasure of working alongside Damian for about 6 months. He is a people person who very much owns whatever product he's working on. Incredibly enthusiastic and passionate about his job, who will assess any situation that you think might be problematic and provide you with his vision on best approach and/or how to move forward (you'll always have an option at hand thanks to Damian!). He thinks outside of the box, and most importantly, he's a great guy. it has been great working with you Damian!

Pedro La Rosa FRONTEND ENGINEER AT CORNERJOB

Damián is a highly motivated software craftsman. He is one of those inspiring people that motivates you to keep giving the best at work and never stop developing your potential. He has demonstrated to have a high skill level in software design and Extreme programming, plus his deep background knowledge in Dotnet and C# helped him to learn JavaScript/Typescript and React in record time. We worked at the same team on an extremely risky and ambitious project that we managed to carry out successfully in AXA assistance. Damián is an awesome team member and a leader. He would perfectly fit to match any project requirement. I will miss his enriching tech talks!

Alejandro Dreyer SR. DEVELOPER AT SAN CRISTÓBAL SEGUROS

He is an excellent Developer and a perfectionist. He develops easily in the team of work and he is always ready to help.

Guido Quadri CONSULTING, TEACHING AND PROJECT MANAGEMENT

I had the pleasure of working with Damian at Grupo Oleum. Damian is a very proactive, responsible and common-sense person. He can tackle jobs under pressure without problems. His help in the team brings human and professional value of great quality.

Santiago Garabaya SOFTWARE ENGINEER AT SESSIONM

Damián is very focused on his work, responsible and always willing to help a teammate who needs it. He has a lot of technical and theoretical knowledge, and he is always willing to acquire more.

Damian Leguina DEVELOPER AT ENDAVA

Person focused on work and learning, he uses his extensive knowledge to find the optimal solution of problems that arise with the tools at his disposal. With a very remarkable capacity for teamwork, you can trust that you will contribute to the group by generating fluency to everyone's complementary skills.
